vikrampawar2104@gmail.com

As a passionate Cybersecurity enthusiast and current BTech student of *2nd Year* specializing in Cybersecurity, I am focused on gaining exposure and advancing in the field of Governance, Risk, and Compliance (GRC). With a strong commitment to developing my skills, I am preparing for the OSCP and CISA certifications. Eager to learn from industry professionals.

## EXPERIENCE

### SwiftSafe LLC, Hyderabad — CyberSecurity Analyst (intern)

May 2024 - Aug 2024 ( 3 MONTHS )

As a Cybersecurity Analyst, I specialize in web application testing and auditing, compliance auditing, and the development of minor projects such as web recon automation tools. Additionally, I work on major tools including SAST for SDLC code analysis and OWASP Top 10 Android pentesting.

### DFIR - FCRF, Noida — Digital Forensic Incident Response Intern

JUN 2024 - AUG 2024 ( 2 MONTHS )

During my summer internship in DFIR, I learned forensic tools and worked on labs using various tools such as HashCalc, FTK Imager, and Autopsy. (Hybrid)

### CFSS Cyber & Forensics Security Solutions - Cyber Engineer

May 2024 - Aug 2024 ( PROJECT BASE INTERNSHIP )

As a project intern, I developed an automated wireless pentesting tool.

### Cyndia Cyberspace LLP, Delhi — CyberSecurity Trainer

OCT 2023 - MARCH 2024 (6 MONTHS)

#### LOR HOLDER

Leveraging my teaching and leadership skills, I contributed to a pentesting course and conducted training in Android malware analysis. I also led on-site training camps for colleges, enhancing their cybersecurity education and Cyber Security Awareness.

### Panipat Institute Of Engineering And Technology- Club President

2023-Present

#### H4CKP13T CLUB - cyber security club

Coordinated and conducted knowledge-sharing sessions, actively mentoring junior team members to enhance their skills.

- Proudly organized a CTF event at PIET
- @h4ckp13t [LinkedIN](#)

## SKILLS

Leadership

HIPAA

## AWARDS AND CERTIFICATE

ISC2 CC (Certified in Cyber Security)

GOOGLE CYBERSECURITY

EC COUNCIL ETHICAL HACKING  
ESSENTIAL

CTF 2024 - IIT ROORKEE

CertIn (Government of India)

## Volunteer

### Security Bsides Noida (Cyber Security Community)

Technical Team Members  
2024-Present

### GDG PIET (Google Developer Student Club)

Technical Team Members  
2024-Present

-finding Bug on Haryana  
Government website  
Acknowledge by certIn

#### CertIn ( Government of India)

-Finding leaked aadhar and pan  
card data Acknowledge By CertIn  
.

## EDUCATION

### Kurukshetra University — B.Tech Cyber Security

2023 - 2027

Bachelor of Technology in Cybersecurity

### Kendriya Vidyalaya Narela, Delhi — Computer Science Student

April 2021 - March 2022

Non Medical Computer Science Student ( 88.8 %)

## LANGUAGES

English, Hindi

## PROJECTS

### 1. Fake HTTP and FTP Honey Pot Trap

To detect hackers, I created a tool that opens sockets on ports 21 and 80. When an attacker attempts to connect using default credentials, the FTP service appears to open, but it is actually just a Python list simulation.

Link [See Project](#)

### 2. Self Alert Enumeration Tool

This tool sends an email notification upon completing the reconnaissance report, which includes details on subdomains, subdirectories, WHOIS information, and more.

( This Tool made a Report Attached With Mail )

Link [See Tool](#)

### 3. Software Composition Analysis Tool

Developed a Software Composition Analysis Tool for detecting programming languages, checking plugin versions, and verifying licenses. Additionally, created a Visual Studio Code extension for enhanced functionality.

#### **4 .Development of Email-PDS (Phishing Detection System)**

My Project is now in developing Phase
